

# The DX Bulletin

AMERICA'S OLDEST WEEKLY AMATEUR RADIO PUBLICATION

ISSUE 246 JULY 9, 1984

STOP PRESS!  
PAGE FOUR.

PROPAGATION: Jul 9, High Normal; Jul 10, High/Above Normal; Jul 11, High Normal; Jul 12, Low Normal; Jul 13, Below Normal; Jul 14-17, Low Normal; Jul 18-22, High Normal; Jul 23, Low Normal; Jul 24, High Normal. Predictions Jul 18-24 are "54-day" instead of 27, will be updated later. TNX N4XX.

Flux (80)	Flux (81)	Flux (82)	Flux (83)	Date	Flux (84)	Alpha (84)	K (84)
196	191	119	133	6/28 98	13		2
183	183	108	129	6/29 96	14		4
177	173	105	125	6/30 97	11		3
157	170	103	123	7/1 98	11		3
150	163	103	117	7/2 98	17		4
143	157	106	121	7/3 100	11		3
142	160	108	127	7/4 101	12		3

80 METERS has been exceptionally productive lately, considering it's mid-summer. Of concern to 80-Meter SSB DXers is the fact that if band expansion for U.S. amateurs takes place as planned, Advanced Class licensees would fill the 3775-3800 window popular with VUs, etc., and Extras would be moved down into 3750-3775, which is the best spot for Europeans to operate while avoiding commercial RTTY on their end.

6 Meter U.K. stations in the Bandpass were worked from the Boston area on multi-hop Sporadic E, the season for which lasts until maybe mid-July. Stations in the U.K. cannot transmit on 50 MHz until after 2230Z, due to TVI.

ALBANIA rumors always seem to peak in the summer, and 1984 is no exception, with OH2BH again being talked about. We have reported extensively on Martti's (and others') efforts at training potential Albanian operators, setting up demonstrations, and the donation of a TS430S to Tirana's largest university. DX Report says LA9PCA and DJ0UJ (who has tried in the past) will be in Albania again this month and may be joined by someone else. We are waiting...

CAMBODIA: we have reports now that conditions on the 14.336 list operation have been so bad lately that they have gone back to the "three tries to get your signal report confirmed" system. Reporters in the Midwest say that when XU1SS is audible, they are SØ.

SU7LD Niger will be on 14.235 list operations at 2215Z the week of Jul 9; he has been in Nigeria, and is trying to take a linear back to Niger. There is still considerable skepticism about his licensing, as he may be authorized only commercial radio, not amateur.

MOZAMBIQUE C9: Here's a letter from Chuck Martin, AB4Y, who has been in Maputo, Mozambique for four months and hopes to get on the air:

"I need a source of equipment and a correspondent in the USA. Bill Shipe, WM4N, has volunteered to be my QSL manager if I can get on the air as a C9. The amateur radio situation here is very strange...most of the CR7 operators split for Portugal ten years ago when the communists took over. The country is undergoing a guerrilla insurgency now and it is almost civil war here. The communist government controls all the major cities but not much else.

"I am a diplomat and am cautiously approaching the ministry of telecommunications about getting a ham license. I have requested callsigns AB4Y/C9 and C9ØA. My wife is also a ham, and after I get my license, she will request C9ØYL and N4GPE/C9. Relations between the U.S. and the Mozambican government are smooth and improving. We started the biggest aid program in the world here, and we are shipping in tons of corn meal and cheese.

"I will be here for two years, and perhaps longer. I want to erase Mozambique from the most-wanted list." (C9 was number 25 in the 1983 IDXB Survey, will undoubtedly be much higher in 1984 -ed).

UGANDA: European sources say that 5X5GK, who appeared late in June, is VE7FXK, a doctor. He is reportedly "not a DXer." His operating time is limited by his use of battery power, and he has no license, but he "is working on it." The stated QSL route of JA1BK is apparently correct.

EGYPT: KA4SBE will be /SU until the end of July, working only 10-20 Meters, as his 40 Meter antenna has failed (too bad, he was quite strong here on 40). QSL WB1GGQ.

U.A.E.: The same source has A6XJJ operated by Dutchman PDØLSS (that's a VHF-only callsign); we have seen no on-the-air reports on him here. He will be back in Holland from late July until September, then in the U.A.E. until the end of the year. No license yet.

JIM SMITH VK9NS should appear any day from the Pacific. No itinerary available, but he reports having licenses for KC6 East and West Carolines, KHØ Saipan, and FW Wallis. Jim was at the Osaka Japan DX Convention last week.

Copyright 1984 The DX Bulletin

The DX Bulletin (ISSN 0279-8077) is published fifty times per year. Subscription rates available upon request. The DX Bulletin is published at Burnap Brook Road, Andover, CT 06232: Second-class postage paid at Andover, CT. POSTMASTER: Send address changes to The DX Bulletin, Andover, CT 06232.

THE GROUP running list operations on 14.235 is calling itself the International DX Association (INEDXA), and they have a whole slate of officers and directors. They want ten dollars from you to support "rare or semi-rare" DX stations. More information from NK5K.

NN6U will be in WEST MALAYSIA for about a year beginning now, says QRZ DX. He plans activity on 40, 80, and 160 Meters, which would practically be a first for 9M2. QSL KB6UF.

LATEST rumored dates for the never-ending saga of a DESECHEO operation by WP4ATF and HI3RST are July 23-31 but, of course, there is no confirmation.

K4WSB/C6A began Jul 7 and will run until the 21st, almost exclusively on the Oscar 10 satellite. Jack's special operating permission for 450 MHz is a first for the Bahamas. Also operating are WB4IOA and WB400J. They are boating during the daytime and operating evenings, and will be fully documented.

A letter from QSL manager WB4TDB "explains" KA0CYR/SV9: "Hal (W0PU) is 'very legitimate' as KA0CYR/SV9. He is presently awaiting his Greek license. While he is waiting he is using his wife's call. So you have nothing to worry about. Unless I hear otherwise from the ARRL, all contacts are legitimate. It is no different from a DXpedition with several operators using the same call" (true, but somebody has to have a license - ed).

QSLs from A51PN still come through, although those CW contacts on May 19 were, indeed, not with Pradhan. In returning one hopeful's QSL, Pradhan confirmed that he has not been on the air since 1982. Speaking of bogus stations, K2PK and others report one "4W1A" on July 2... someone recently got an FB8WG QSL after waiting almost two years...

A NEW READER and subscriber asked just which countries will respond to dollar bills with QSL requests, and we have searched for a general answer. Dollar bills are likely to get through alright to Western countries with democratic governments and secure postal systems. There are, unfortunately, some DX stations which will take your money and not QSL at all, or will QSL back to you through the Bureau System. IRCs were never a bargain, and they are a real rip-off these days; one current national celebration is offering a certificate and they want twelve IRCs for the honor. There's an old saying about those holiday fruitcakes... nobody ever eats them, they just keep getting passed around as gifts every December. We think the same is true for IRCs: nobody ever cashes them in, they just get passed around.

QSL information for the July Tahiti Tiurai operation...all the following are via WB6GFJ: F00FB, F08HL, F08HO, F08DF, F08HI, and F08CX. Actually, the celebration runs Jul 14-21 and there will be plenty of activity from all these stations. Further details are in June QSI, page 74.

*telephone - no good work*  
"The FCC would do well to re-establish the First Class Radio license to ensure that stations (commercial-ed) are operated by competent personnel. Indeed, proper licensing may ultimately affect how available the existing technology will be to its intended users. Who would ever believe that one can now secure a federal license from volunteer examiners to transmit signals to any corner of the earth? Prospective radio amateurs are about to."

--- Vincent J. Biancomano  
editor, Electronic Design

QSL HELP NEEDED: by NE8Q (N8DF0): 9L1DR, Aug '83; 3B8DA/3B9 Jan '83. By JA3GM: YALIW (opr Cal, Jun '59, former manager was W6DXI). Robin, DU9RG, wants to know the current U.S. call and name/address of former XW8EW, Jack McGuinness.

George Wagner, K5KG, is active Jul 8-16 from the Aland Islands, K5KG/OH0. He's concentrating on CW and will be on during the IARU Radiosport (Jul 14/15). QSL K5TU.

XT2BM has closed down his Upper Volta station and is now traveling by car through Africa, then home to Austria, according to his QSL manager KF4YB (ex-WD4RHL). XT2BM's 6-element beam was bequeathed to XT2BW.

KB2HZ and wife KB2TB will operate from Tahiti as F00GAD starting Aug 27 (Bora-Bora).

PLAQUES for Honor Roll DXCC members are in the works. The supplier is expected to have a sample for approval soon. The plaques will be an enlarged version of the current Honor Roll lapel pin, and cost will most likely be about the same as other ARRL plaques (about \$40).

CLUB OFFICERS: Redwood Empire DX Association (North Cal) WB6NBR, K6LRN, VP2ML, K6ZUR, and WB6FDQ. Dixie DXers Contest Club (Atlanta), K4JPD, WI4R, WD4IKI, W5VUX, and NQ4I. This group has a meeting 3rd Thursday of each month, near the airport. Call for details at 404-942-6226.

I2YDX, well known for his 600DX Somalia operations, is in Haiti until the end of the year, and will be active in various contests with different call sign prefixes, including HH2 through HH10. QSL to I2YAE.

This year's W9DXCC Convention will be Sept 15 in Glen Ellyn Ill. Advance registration is recommended. Details from Howie Huntington, K9KM, 65 S. Burr Oak Drive, Lake Zurich IL 60047.

THE W6GO/K6HHD LIST  
PO BOX 700  
RIO LINDA, CA 95673

## QSL MANAGERS LIST

Beginning our FIFTH year of publication. We have satisfied subscribers all over the world. Some folks say it pays for itself in postage savings. Updated continuously, published monthly. QSL Managers listed for over 5000 DX stations.

US/VE/XE:  
\$15 - 12 issues  
\$1.75 each

OVERSEAS AIRMAIL:  
\$25 for 12 issues  
\$2.80 each (US\$)

## RECEIVER GUARD 2000

TOTAL PROTECTION AGAINST RF BURN OUT OF SOLID STATE FRONT ENDS

3 MODELS: model P- phono plugs- \$29.95

model U- UHF connectors- \$29.95

model CTI- model U + ALPHA DELTA 'TRANSI TRAP'™

for complete RF & LIGHTNING PROTECTION- \$49.95

add \$4 shipping & handling...SASE for SPEC SHEET

STOP PRESS!

VK9NS was on the air  
from Norfolk the morn-  
ing of July 6, and is  
having trouble get-  
ting transportation  
off the island. His  
Pacific operations are  
postponed indefinitely.

5X5GK was on Jul 6  
also, and he speaks al-  
most no English, so  
the information that  
he is VE7FXK may not  
be correct. That would  
also help explain the  
Japanese manager.

DJ5CQ/SV/A QSLs being  
received, with a photo  
of Rudi with two Monks.  
SOMETHING IS FISHY.
